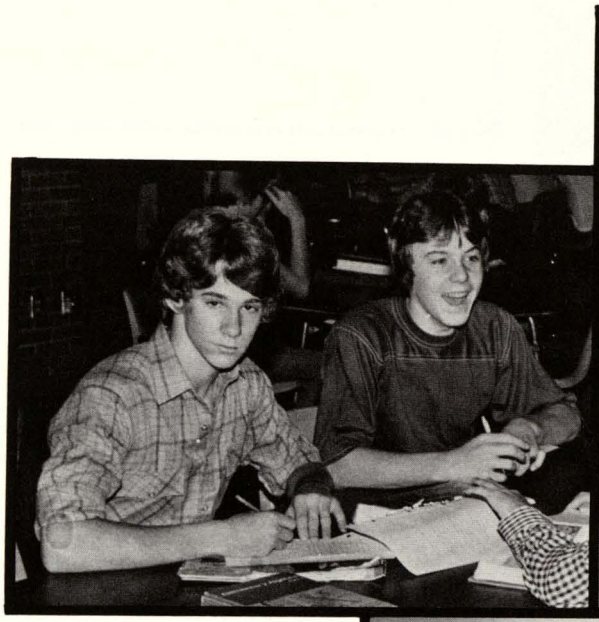
"This Is It"

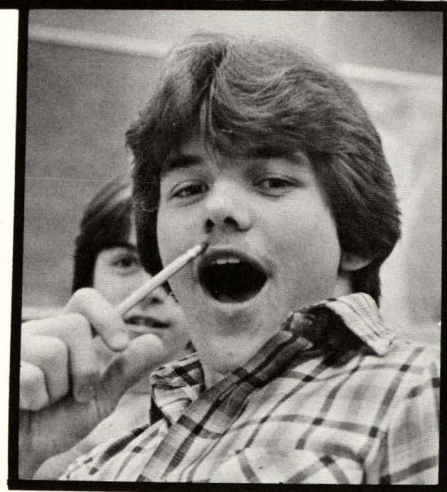
Songs in the Key of Life

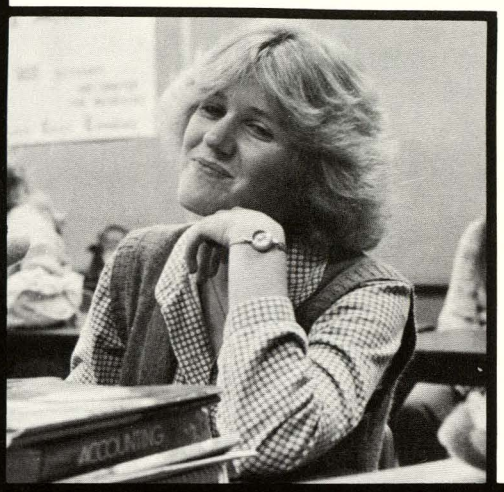
Music plays a very important part in the lives of all high school students whether we're listening to the radio or tapping our foot to a song only in our mind. As we page through this **Valhalla** in later years, we will be reminded, through song titles, of what was present but now is past.

"Emotional Rescue"

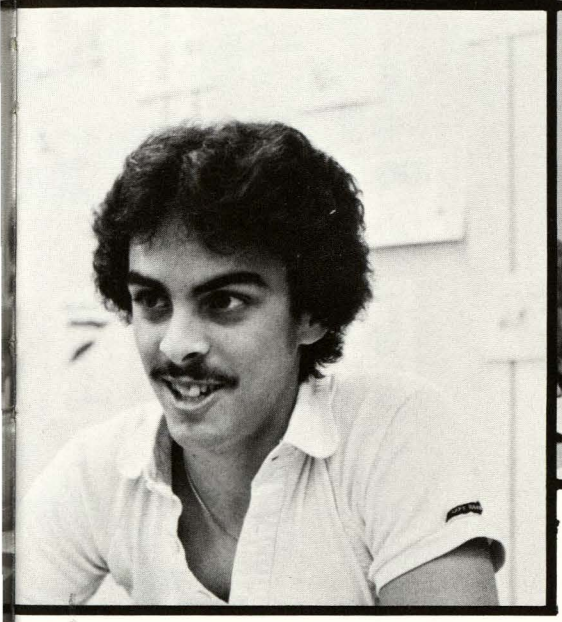
Faces reveal many things about how people feel. They show our emotions whether sad, happy, excited, or depressed. In them we escape and show our troubles and triumphs. We let ourselves come forth by showing our excitement at a football game or tension at a close basketball game. Tests bring out fear and depression while grades make some happy but others sad. But, no matter what the occasion may be, our emotions will always rescue us.

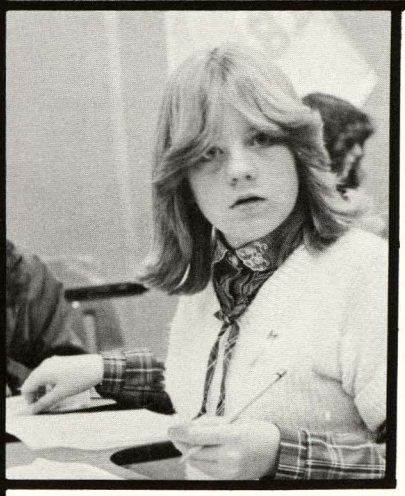






ACCOUNTING





"Our Little Town"

Urban, suburban, and rural life together make up the school district of which we are a part. Our community plays an important role in the lives of everyone at Swan Valley High School. Besides school, many students are involved in activities or have jobs in our area. Local businesses help to support our schools and to furnish part time jobs for students.

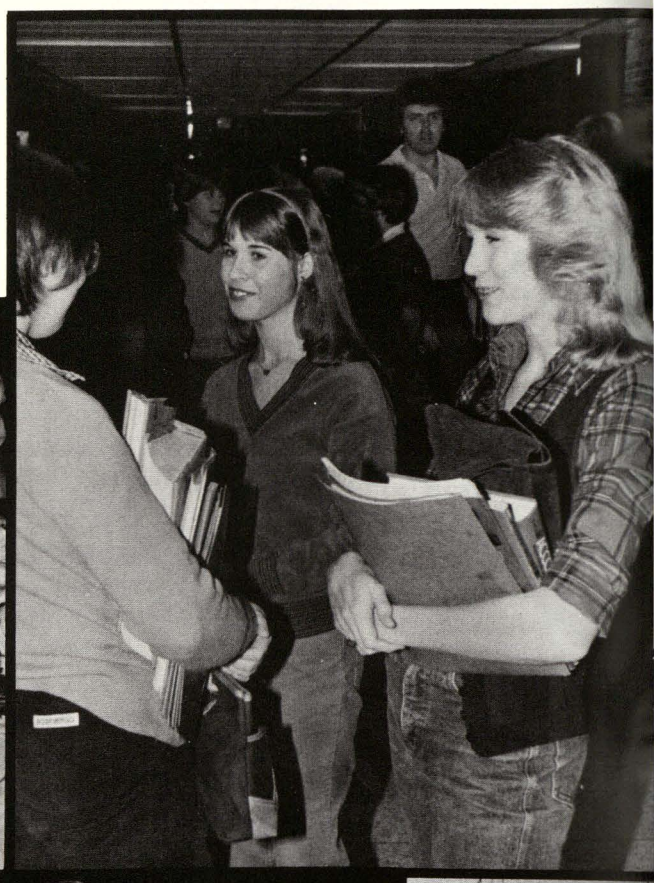
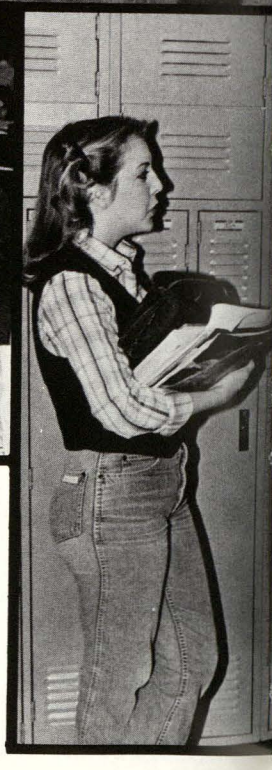
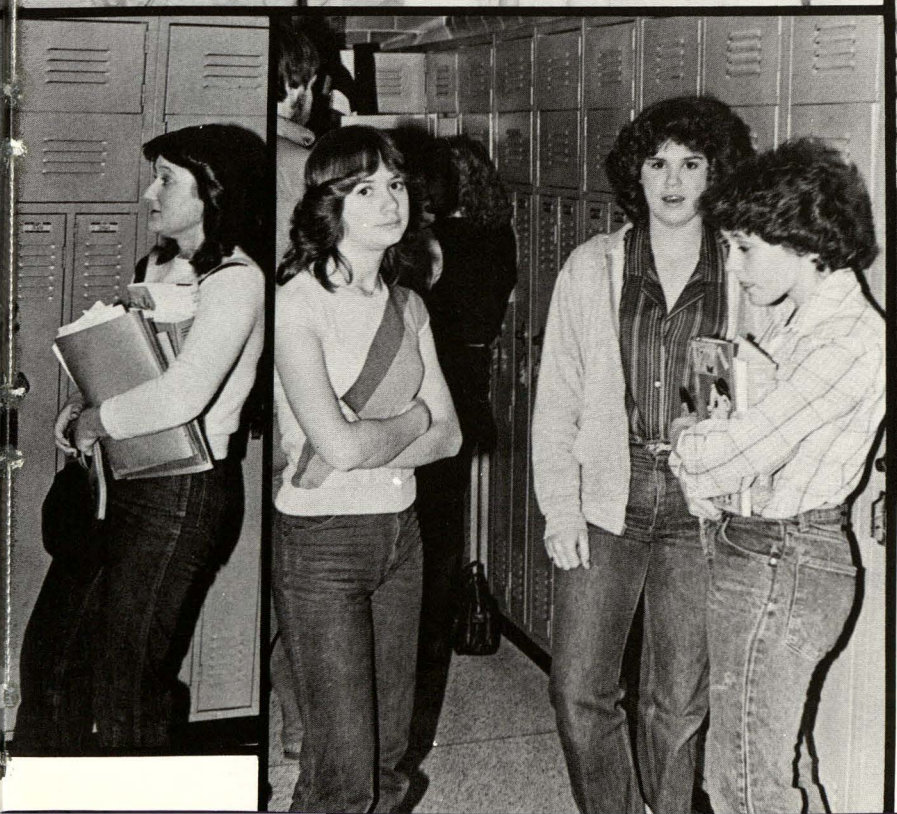
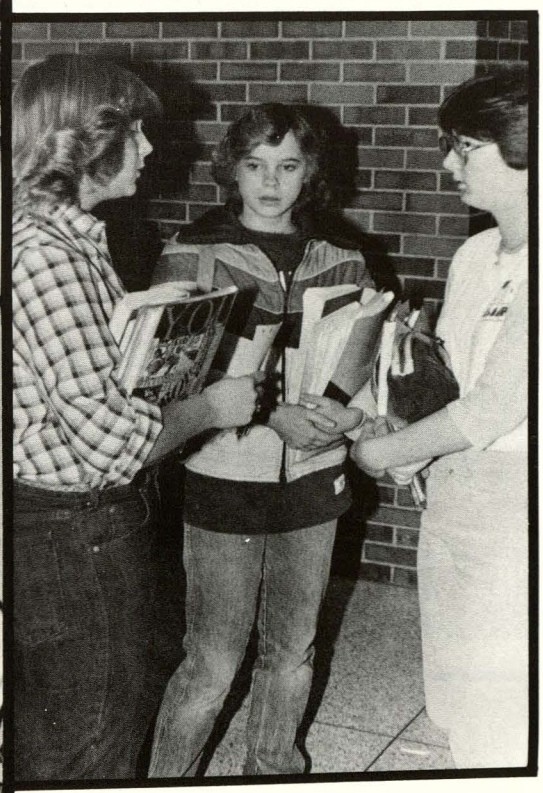
"Thank You For Being A Friend"





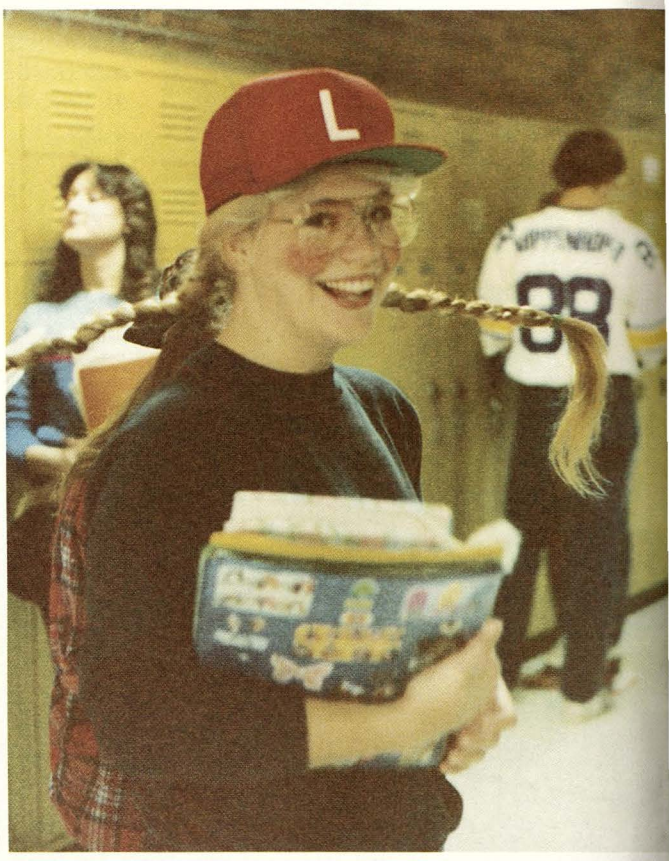
A major part of our education comes from more than just books. A good relationship with a friend teaches us responsibility as well as loyalty. Memories of going to our first dance or football game, of working on a float, or of just being with friends are ones that we will carry with us for many years to come. High school offers many things, and one of the most important of these is friendship.

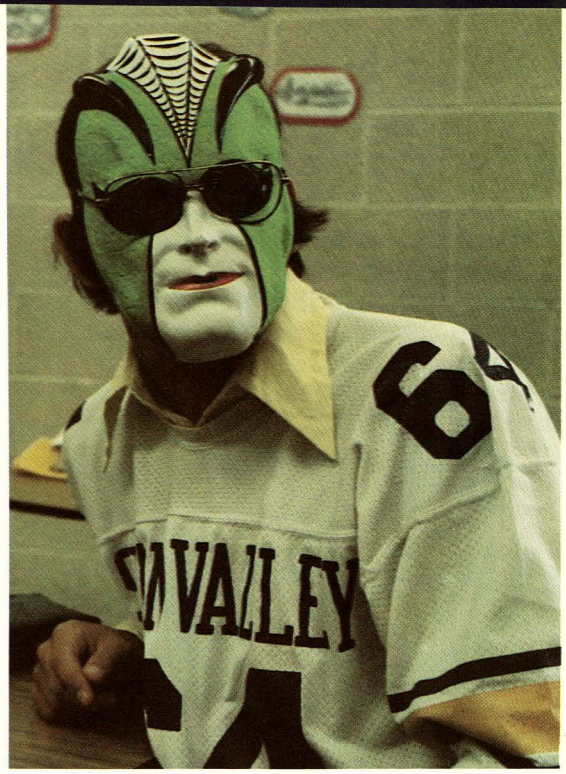




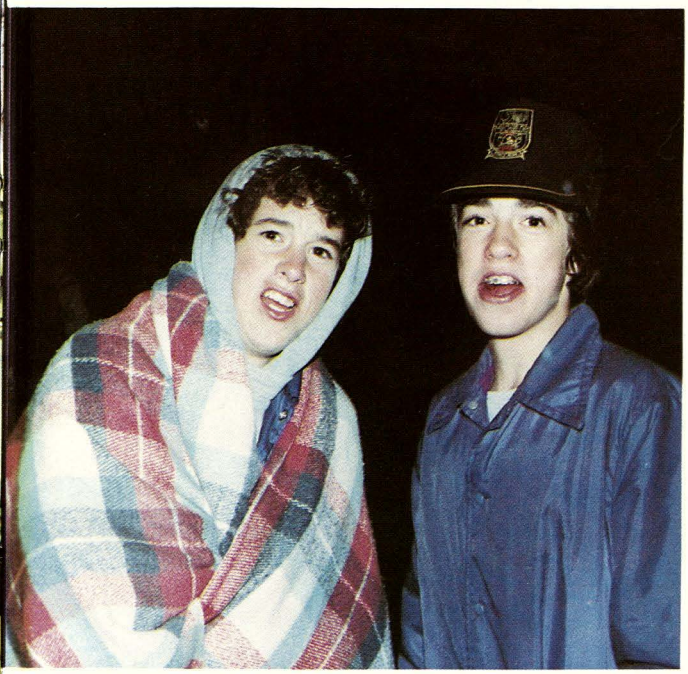
"Be True To Your School"

School spirit plays a big part in every student's high school days. Dressing up for Halloween or being a spectator at a football game are memories never to be forgotten. Even the staff participates in these events. Spirit exists not only in sporting events but also in academic achievements as well. Participation in these events will provide long-lasting memories.



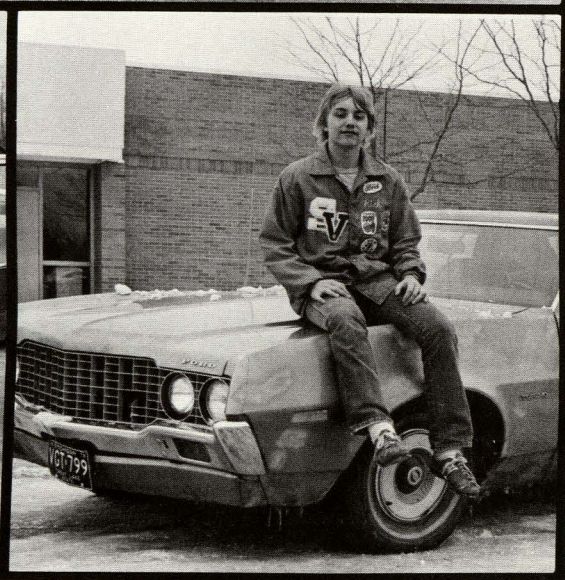


VALLEY



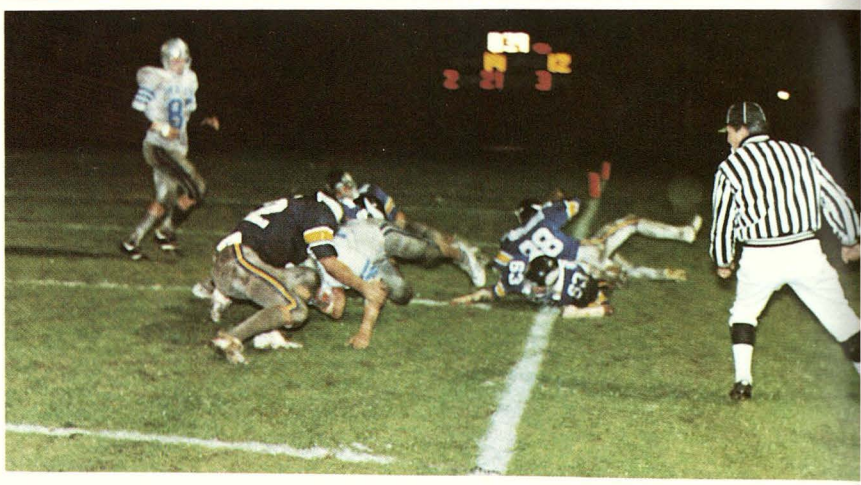
"Cruisin' "

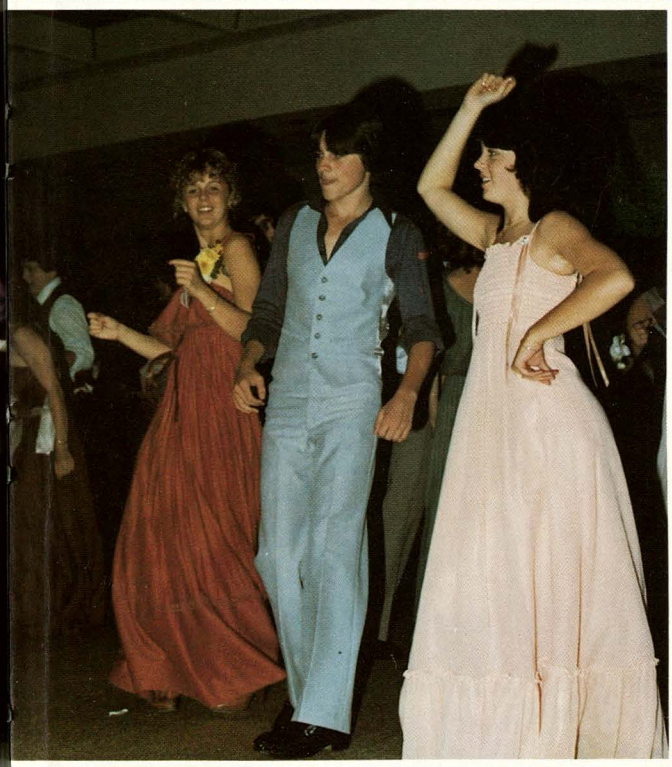
Sleek sports cars, beat-up jalopies, compact economy cars, pickup trucks, and a wide variety of other types of transportation fill the parking lot each school day. Even though gasoline prices continue to soar, the number of cars has not really declined. Regardless of the age or condition of their cars, students are happy to have "wheels" so they can cruise.



"Dreaming"

Queen Lori and her court:
Michelle Brissette
Misty Winiarski
Tracy Weber
Gretchen Alcorn
Cathy Guevara
Cathy Turner



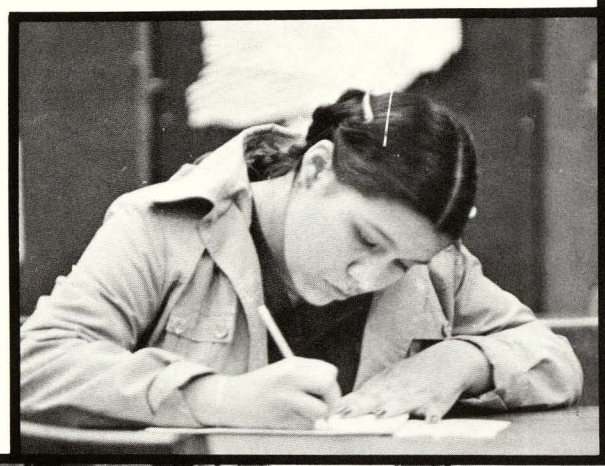


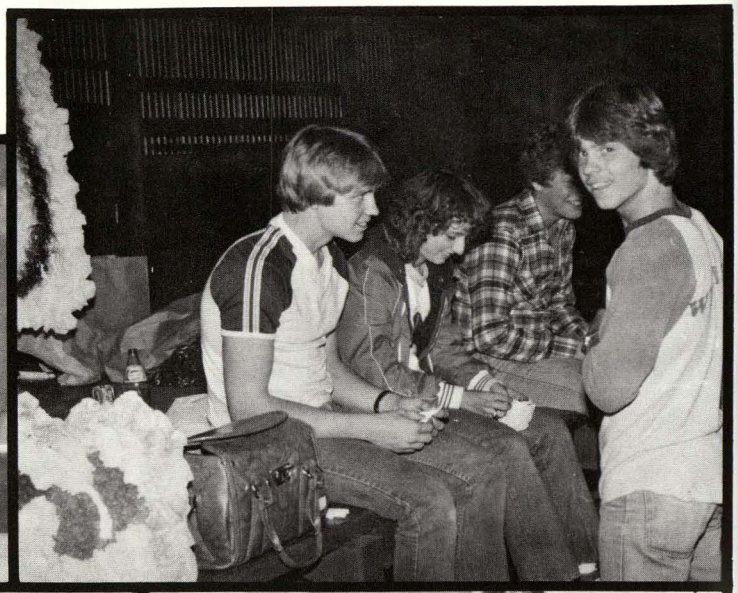
Despite bad weather the 1980 Homecoming festivities were a success. Although there was no parade, spirits were high and excitement was in the air. The Vikings defeated a tough Hemlock team 21-18 on a muddy field. The highlight of the evening was the crowning of the Homecoming Queen, Lori Matzke.

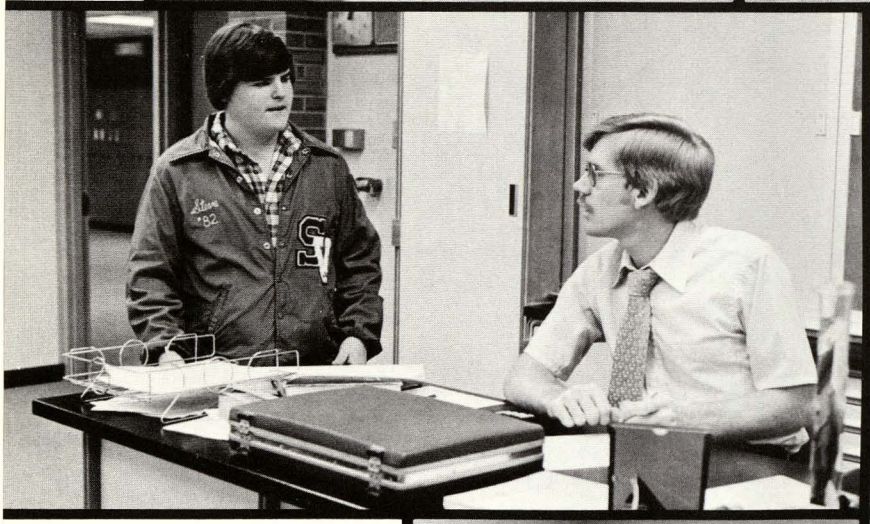
"Tangent" supplied the music for the dance which concluded the weekend activities.

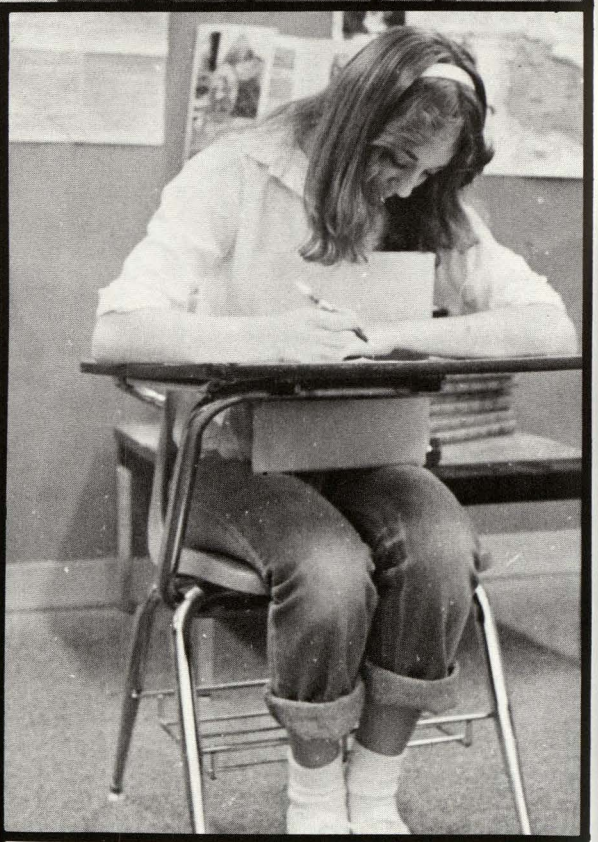
Homecoming always is a time of special moments and memories, and this year was a dream come true for all.

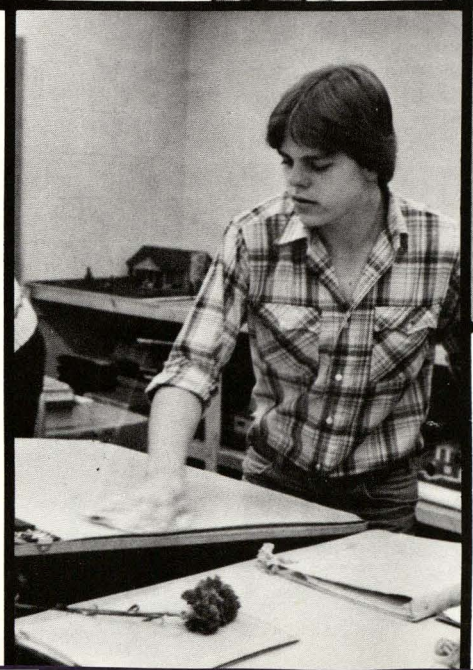
"School Days"











Talking with teachers, studying hard, and participating in extra curricular activities are many of the actions of everyday school life. Both work and enjoyment can come from school.

DISCO FEVER COOLED

By Jayne Scheib
News Editor

This years school dances might be a little different for some people.

According to Mr. "C" there will be only one dance for each grade plus the Junior / Senior Prom and the Homecoming dance.

All dances must meet the following: First, the exact date and time must be on the official calendar in Miss Eberer's office. Second all dances must be okayed with the class sponsors, principal and/or assistant principal. Third, the Activity Data Sheet must be completed with names of chaperones (minimum of six) and a clean-up committee and returned to the principal or assistant principal at least five days before the dances. Fourth, the Activity Contract must be completed and signed at least five days before the dance.

Only Swan Valley High School students who attended school the day of the dance may attend. Students under suspension or probation will not be admitted.

A Swan Valley High School student may sign up only one guest. The name and the school of the guest must be complete. Guests must be on the list by the end of the day. The host student is responsible for the guest. If the guest is involved in trouble-the host student is too, and there will be a parent conference. The school reserves the right to admit or exclude any guests.

Any unacceptable school behavior is also unacceptable at a high school dance. Such as fighting, false fire alarms, arson or the use of alcohol or drugs is serious and calls for a suspension from dances for a semester (for a period no less than five school months from the date of the incident, five months is equal to half a ten month school year.)

The future of school dances depends on the students who attend and their behavior. There can be NO compromises when dealing with the above.

BAND CANNED

By Julie Dorcey
News Staff Writer

This summer the S.V.H.S. Band went to the M.S.U. Band Camp for a very hard weeks work, just to find out that the millage had been defeated and band had been cut. Mr. Michaelson was determined to make the band program work with the help of the band boosters to pay for it.

The total cost for the band was over $25 thousand. To pay for the instructor was $22,000 and the other $3,000 was to pay for band supplies transportation to competitions, and matainance.

The Band Boosters had $7,000 to work with already from having a bingo every week. The way the Band boosters were to pay for the rest of the cost was to have the parents help. $100 for first child, $80 for second, and $65 for the 3.

There were over 80 students in the band program that went to the Band Camp. When school started there were 33.

The Band Boosters all were counting on all of the members to contribute, but since there were so few left, there was not enough money. Therefore they failed.

"The Ransom Of Red Chief"

3

The Drama Class presented three plays during the year. The first was a comedy entitled "Sherlock Meets the Phantom". For their annual children's theater the class did a dramatization of O.Henry's famous short story "The Ransom of Red Chief" with Jason Olson in the title role. As their final endeavor, the class chose a comedy in three acts "Father Knows Best". This play is about the Anderson family and problems they encounter.

1. Sam (Tim Morningstar) reads the note from Ebenezer Dorset. 2. Bill (John Kauer) controls Red Chief (Jason Olson) by sitting on him. 3. Red Chief is preparing to scalp Bill. 4. The Andersons (Dave Galonska and Claire Rossi) with Mr. Brinkworth (Jeff Pinnell) try to explain their problem to the Officer (Bob Naylor). 5. Mrs. Wembley (Monica Schraeder) and the girls of the Garden Club arrive at the Anderson house to complicate matters further. 6. Kathy (Chris Cotter) and Patty (Anna Williams) create a lot of commotion at the Anderson's. 7. Betty (Leann Bauer) waits for her parents' decision about her date. 8. Jim notifies the police of Betty's disappearance.

Any students willing to work, type, write and interview could have been a member of the viking Voice staff. Their biggest activity was to print the newspaper at least once a month and more often if possible. To publish school news items and express students' opinions was the main purpose of this group. They planned, if money became available, to present a scholarship for a summer journalism course to a member of the staff. Mrs. Hensler acted as staff advisor.

1. SEATED: Julie Dorcey and Jayne Scheib STANDING: Jon McQuinn, Carrie Wasmiller and Jim Reid.
2. Julie and Jayne get some information for their articles out of the library.
3. Jon points out an interesting article to Jim and Carrie.

The 1980-81 Valhalla Staff

The **Valhalla** staff worked diligently during 5th hour planning pages, cropping pictures, and typing copy especially when deadlines were approaching. Each member of the class had pages to design, assemble, and complete by a certain date. Mrs. June Stearns was the advisor for the yearbook.

The 1980-81 Pom-Pon Squad participated in many events during the past year. They attended summer camp as well as pom-pon competition. They took part in various local parades and performed at all home football and basketball games and at most of the pep rallies.

The captain of the squad was Misty Winiarski and the co-captain was Diane Swanton. Dawn Rulapaugh was the historian and Tracy Engel was the treasurer. The advisors of the squad were Mrs. Koppenhofer and Mrs. Schneider.

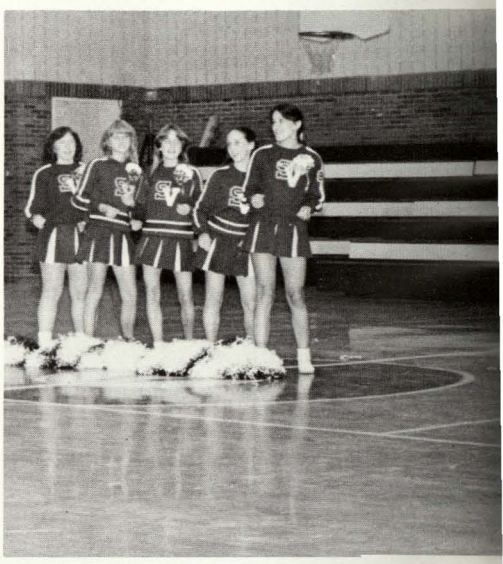
Freshmen And JV Cheerleaders



Cheerleaders added much of the school spirit. They cheered at football and basketball games and attended designated competitions. They helped raise excitement and spirit at pep assemblies.

To be selected to a cheerleading squad, each girl had to demonstrate cheerleading skills before a panel of judges. Cheerleaders had to maintain a "C" or better average in class work, maintain a "3" or better in citizenship, follow athletic training rules, attend all practices, and participate in all performances and activities that were required of the group.

Because of the fact that freshmen and J.V. football were combined, the J.V. and freshmen cheerleaders cheered together during the football season, during the basketball season they performed in separate squads.

1. Jenny Ehlman, Jenny Kaylor, Lisa Hilton, Carolyn Ernest, Linda Bailey, Terri Lynch, Robin Paquette, Leanne Waldie, Beth Campbell, Lori Brink, Kathy Rutledge, Traci Denno.
2. The freshman and J.V. cheerleaders show their spirit at a pep assembly.

Achievement Night

1

Achievement Night was held on April 7, 1981. The purpose of this event was to afford parents and other interested members of the community the opportunity to visit the school and view the progress and activities of the students. Many projects were displayed in classrooms, the library, and the cafeteria. The furniture made by students in wood technology class impressed everyone with its beauty. The annual event was again a success.

Delta College Commons, decorated in the theme "Celebration", was the setting for the Junior-Senior Prom. With over 100 couples present, the prom was a big success. Although the prom itself was May 23, 1981, preparations leading up to it began months in advance. After selecting and scheduling the band "Amphagas", the work had just begun. Making decorations and selling tickets, while trying to keep accurate records were only a few of the tasks that were done to make this prom an unforgettable and cherished event.

1. Everybody was crowding around to discuss the night's plans. 2. Rick, Renee, Karen, and Scott are taking a break from the busy night. 3. John escorts his date Teresa out into the moonlight. 4. What a variety of emotions these three couples represent! 5. Carrie, Lisa, and Mark are enjoying the evening. 6. Glenn and Lori are in the spirit of the occasion. 7. Numbers = Mathematics

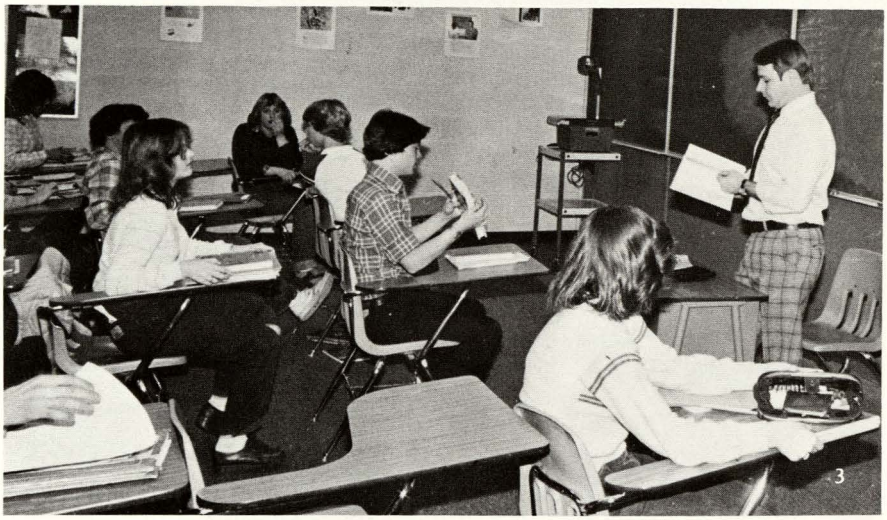
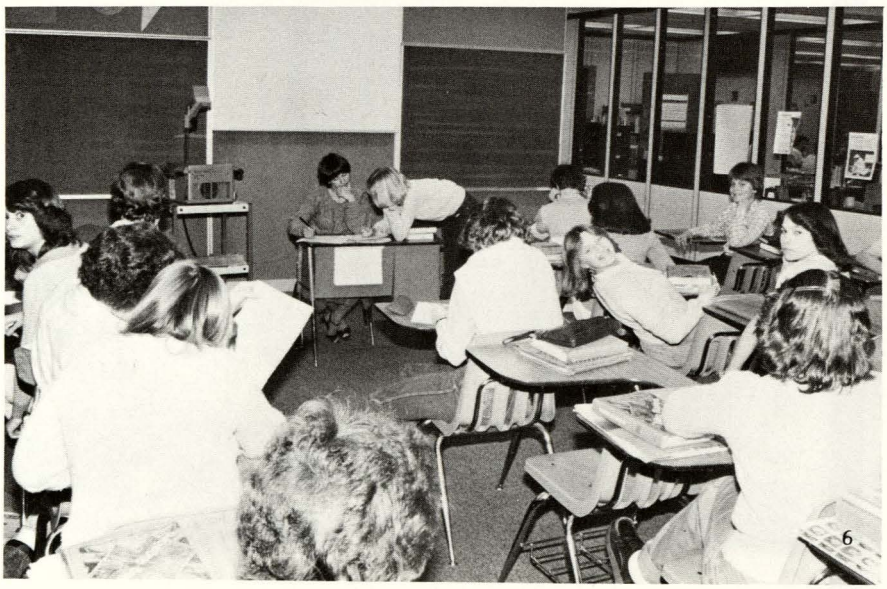
Numbers, formulas, equations, and figures of many dimensions were the major concern of the Math Department staff. Courses ranging from basic algebra and general math to Algebra II, Trigonometry, Modern Geometry, and Pre-Calculus offered challenges to students of all abilities in the field of mathematics. To be successful in these classes was no doubt a rewarding experience.





1. Is this what happens to Mrs. Bell during a sneak attack? 2. "Now, class, what type of triangle is this?" 3. Another morning of math starts off at a fast pace. 4. Time for a quiz, class. 5. Mrs. Hensler uses the board to illustrate a point. 6. Mrs. Bell's class is hard at work once again.

The Academic and Basic English classes at the 9th and 10th grade levels introduced students to almost all phases of the communication skills. At the 11th and 12th grade levels students could select either the college prep classes in American and English literature or the classes in Vocational English, Mass Media, or other electives.

1. "No! I don't want any more words, I have enough, thank you." 2. Once again group exercise is employed to bring about a better understanding of **Macbeth.** 3. Social Studies:

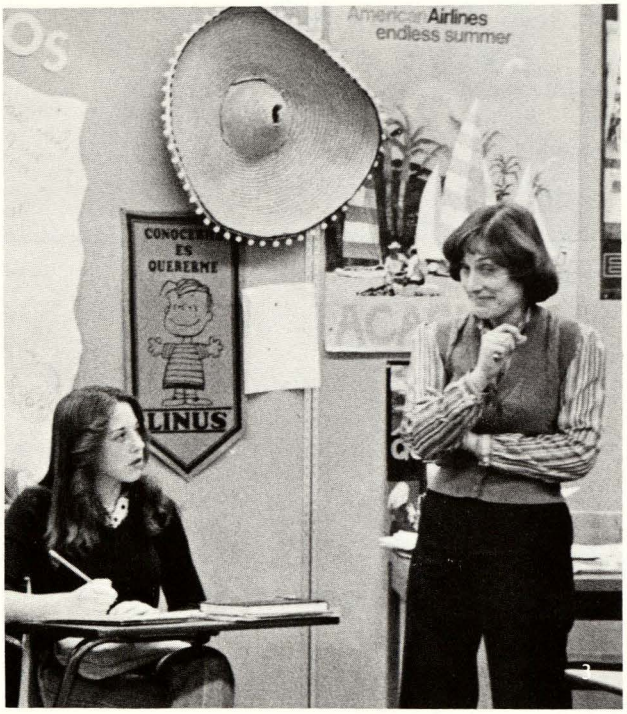
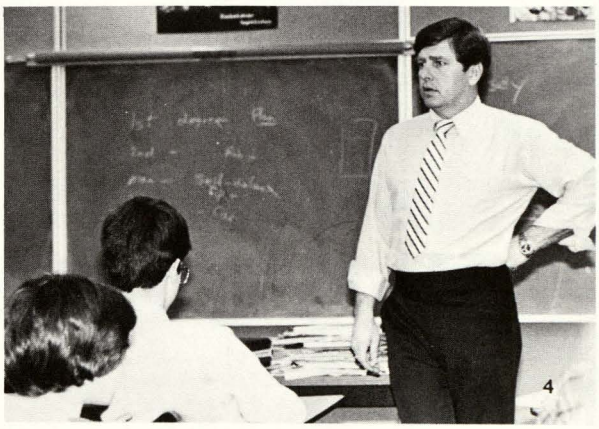
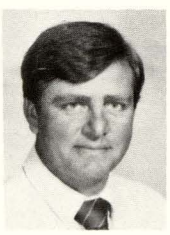
Beginning with geography and civics in the 9th grade and ending with government and economics in the 12th, students learn about the world and its people from these and many other social studies classes. To understand the present, students study the past in both World History and U.S. History. Psychology and sociology offer the opportunity to learn more about human behavior and how it affects society as a whole.

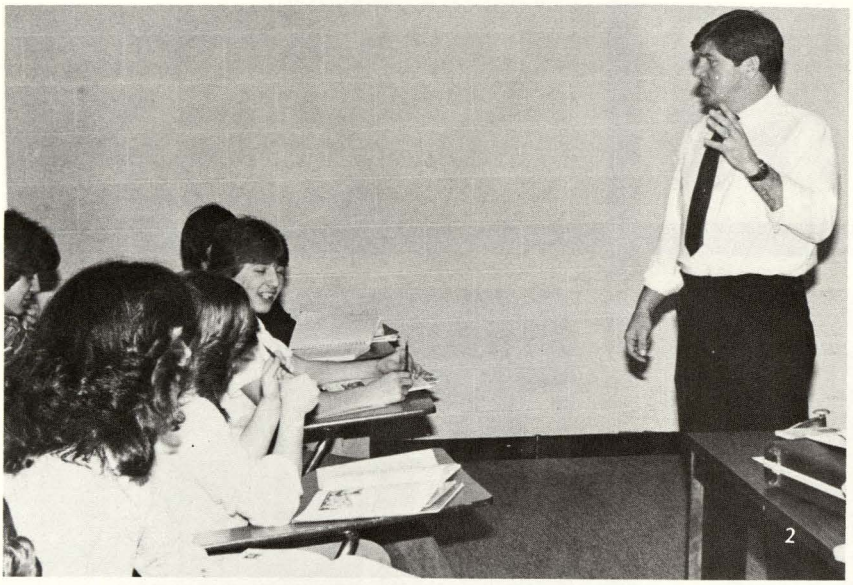






SOCIAL STUDIES STAFF MEMBERS:
Mr. Michael Hamling, Mrs. Nancy Tesauro, and Mr. Chuck Koons.

Key To The World



1. "You know, education can be fun!" 2. "The world is round." 3. As the hat in the background suggests, Mrs. Tesauro teaches Spanish as well as social studies. 4. "Ok, this is the plan. Joe, you go up the side with a good question, and you, Sam, come around for a good block with an answer. Then we'll tackle the problem." 5. If looks could kill ... 6. A Freudian complex can be a terrible thing.

Creativity At Work

Under the instruction of Mr. David Miller, those students who were in the art classes had the opportunity to be creative and free in expression. 1. "Is this art class?" 2. "You know we get to play with the clay next." 3. "What should I do next?"

SCIENCE DEPARTMENT STAFF: Mr. William Guilford, Mrs. Mary Ann Nassif, Mr. Ron Schrems, and Mr. Ron Belcher.

Some of the most enjoyable "hands on" classes at Swan Valley were the science courses. Whether one was disecting a pig, playing with deadly chemicals, or pushing buttons in electronics, one always seemed to have a good time. Providing an education in some of the more complex sciences, our Science Department gave a great background for entry into college. Other classes in weather, ecology, geology, and physical science gave students the opportunity to learn facts pertaining to their environment.

1. An overpowering influence draws near a young student. 2. Mr. Schrems decided not to wear the traditional Santa suit and wore his Christmas tree outfit instead. 3. "Some meteors are about yea big, right, class?" 4. Mr. Guilford is handy to have around for questions about ecology. 5. A humorous moment in class. 6. Welcome to the Belcher Institute of Entropic Studies. 7. Mrs. Nassif is still trying to discover new microbes.

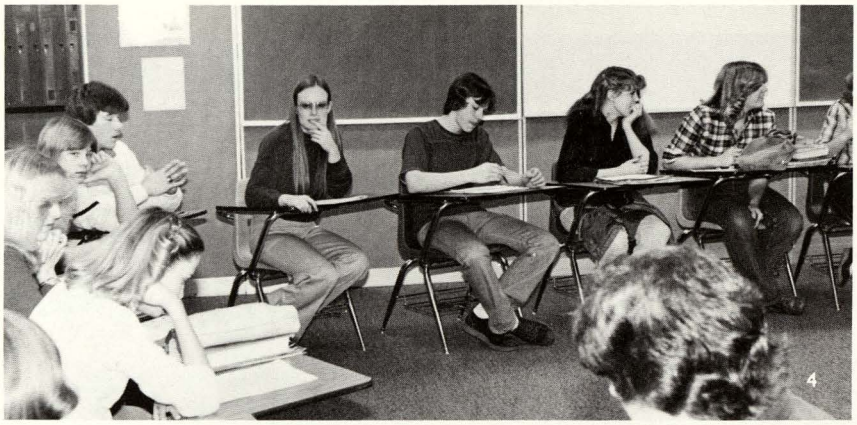
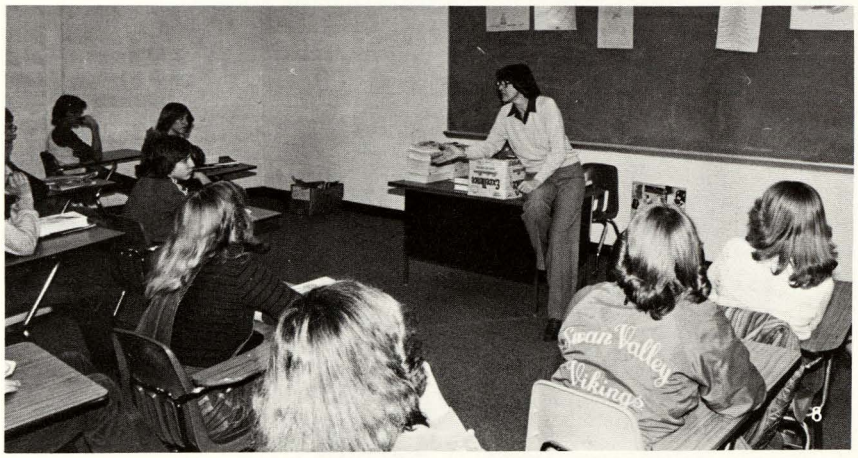
PHYSICAL EDUCATION, HEALTH, AND SPEECH STAFF:
Mrs. Beverly Koppenhofer, Mr. Tom Kennelly, and Mrs. JoAnn Schneider.





Knowing how to save someone's life and doing it right is one of the most important things anyone can know, and in Health I class each student was taught these skills. From CPR to first aid, Health I proved to be a trying but rewarding experience. Most physical education classes were enjoyable to students but offered challenges to athletic skills of some.

1. Once again it's time for the semi-annual CPR test. 2. Mr. Kennelly is always ready to hand out advice on research papers. 3. Sometimes it's a long wait in line for the dummy. 4. Mrs. Schneider gives out new hand signs to the class. 5. Mrs. Schneider holds a major class discussion in the speech class she teaches. 6. "No! It's not my arm that hurts, it's my leg!" 7. "You may not believe this, but I am in a great deal of pain." 8. Mrs. Koppenhofer shows her great command over her speech class . . . absolute attention. 9. Two tired and unsuspecting athletes caught by the camera.

Homemaking And Child Care

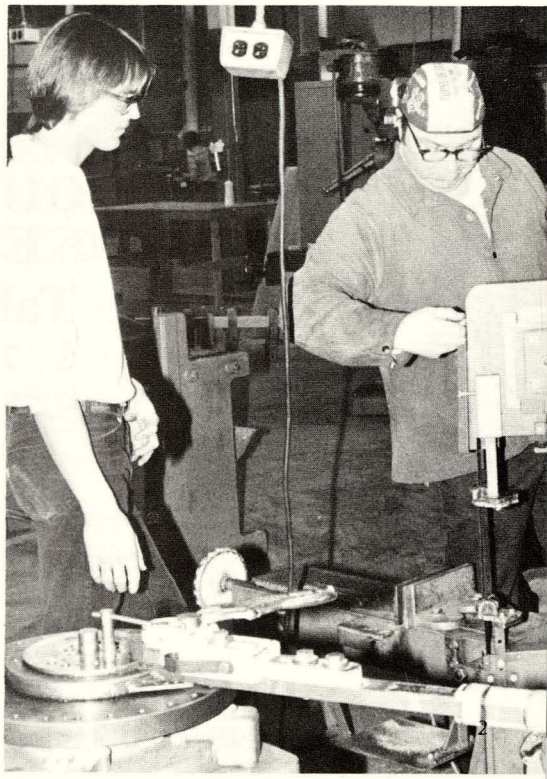
Teaching all the special skills of homemaking and child care was only part of Mrs. Joan Baumgartner's job this year. In addition to the usual home economics classes, Mrs. Baumgartner taught a Govt./Econ. class. During the second semester, the Child Development class held its usual nursery school for two weeks. Valuable experience is obtained by the girls who have this opportunity to work with small children.

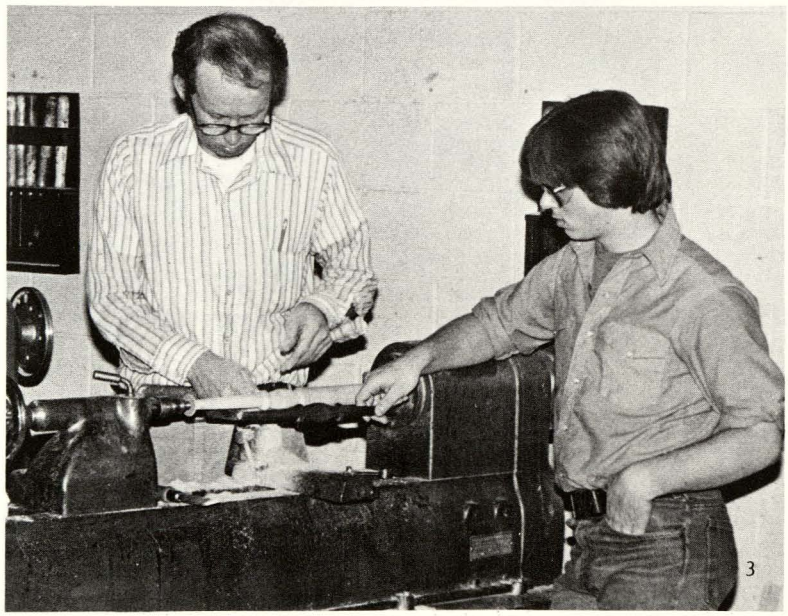
1. A mixture of emotions are displayed by students as Mrs. Baumgartner lectures. 2. The youngsters are having a grand time being creative.

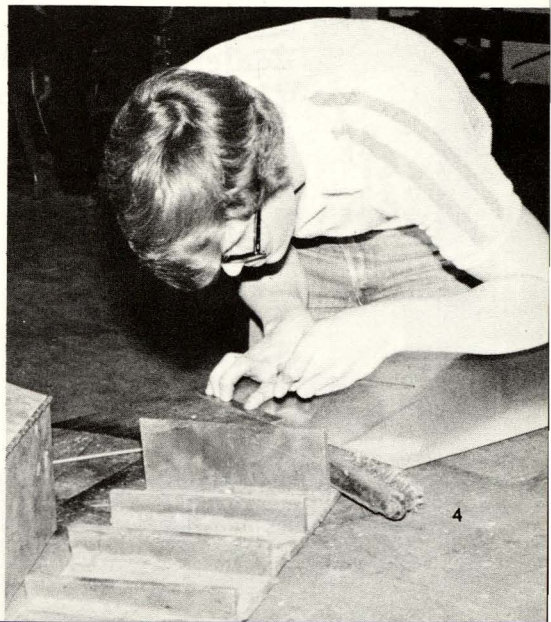
Experience Teaches Skills

Each class in the Industrial Education Department provided information and skills which one can use to better the world around him. Build a shelf, design a house, make a table, it's all there, for you ... waiting.

Mr. Stan Musial and Mr. Quin Henry taught a wide variety of classes in manual skills.







1. Mechanical drawing must have exact measurements and lines. It all takes time ... 2. Concentration is a must! Mr. Musial prepares equipment. 3. Mr. Henry demonstrates using the lathe. 6. Back to the drawing board.

This year several changes took place in the personnel in the offices in our building. Mr. Howard found that he had to handle the Guidance Department by himself as the staff was cut. Miss Ederer was back in the classroom scheduling students for next year. Miss Whitman came over from the junior high to become the librarian. Mr. Humphrey's time was split between teaching physical education and performing his duties as Athletic Director.

Rarely, if ever, would the counter in the main office at the high school be as deserted as it appears to the left. Each day before school, at lunchtime, and after school this area was crowded with students asking for excuses, pencils, paper, and a multitude of other things. The office staff had to have infinite patience to handle all of the students who needed help and all of the problems that required immediate attention. This office is really the "heart" of the building.

J.V.'s Gain Valuable Experience

Ron Belcher had an enjoyable first season as JV Golf coach. The players were super as they gained valuable experience through practice and match play. Outstanding players for the team were Nick Casale and Scott Huff, who showed consistency in skill with improvement that will be valuable for varsity in later seasons. John Hamilton won the intra-squad championship by shooting a five under average round. Next season should be a very good one for the team.

Four Harriers Make State

The Cross Country team had an outstanding season with four of its members making the State Meet. The team started the season late, but after becoming physically conditioned, ranked with the best of teams. Sue Kamsickas, Tammy Blehm, and Jill Hamilton played an important role in the girls' success while Chip Carrick led the boys. Carrick was not defeated in dual meet competition. The girls look forward to great success next year as only one of the girls on this year's team was a senior. Coach Marc Fitzgerald put in many long, hard hours preparing the team for the season.

J.V. Prepare For Varsity Play

Teamwork And Defense The Key

The Varsity Basketball team finished the season with a 15-7 record. The team was led by seniors Phil Young, Rick DeLisle, Jim Koeltzow, Dave Koppenhofer, and Matt Coffey. Juniors Craig Leddy and Scott Sargent added their abilities to help in the success of the team. Although this year's team was small, they used excellent teamwork and defense to give them their victories. Their hard work and continous all-out effort were the main reasons for a very successful season. The 1980-81 team earned its own place among the other great teams that have developed a fine basketball tradition at Swan Valley.

Freshmen Cagers Look Ahead

Despite a poor beginning, this year's freshmen basketball team showed considerable improvement as the season progressed. After losing their first six games, the freshmen cagers finished the season with a 3-11 record with wins over Bullock Creek, St. Charles, and Mich. Lutheran Seminary. The inability to run an effective offense placed great emphasis on defense. Defensively, the team showed considerable proficiency as three times they held opponents to below 30 points. The development of Keith Praay, particularly as an offensive rebounder and scorer, really gave the team a big lift. Other slack was picked up by Pete Young and Don Wiedbrauk. This year's team was coached by Ross Klemko.

Vikings Suffer From Inexperience

Despite a 2-12 league and a 3-15 overall record this year's Varsity Baseball team showed many bright spots. Donkey Basketball-A Kick

Each year in order to raise money for sports, the terrific teachers take on the super seniors in a donkey basketball game. This year's game was even more of a game as both sides were out for blood. Announcements were geared to psych-out their opponents. The real test came on the court after the teachers had gained a mighty lead; the seniors fought back under the direction of their coach Jon McQuinn with super teamwork and great effort and managed to just nip the teachers by one point. Mr. Koons received the best pickup award. Better luck next year, teachers!!

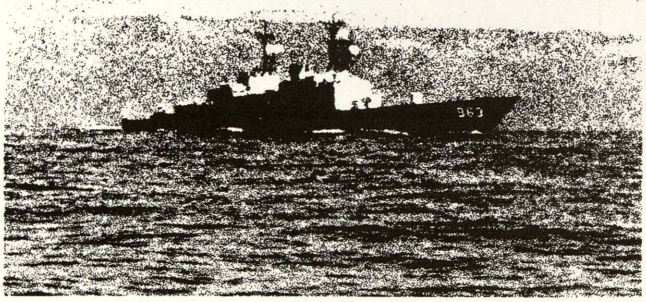
THE NAVY. IT'S NOT JUST A JOB, IT'S AN ADVENTURE.



In the Navy, a job means more than just a good paycheck.

It means the adventure of seeing places like Greece, Spain, Hawaii and Hong Kong. It means becoming an expert on exciting technical equipment in our submarines, on our jets, and in our ships. It means doing a job that really counts, with people who count on you to do it.

The Navy can give you training in more than 60 career fields. Talk it over with your Navy recruiter. He'll be able to tell you what you can qualify for in the Navy:

A Year Of Change

World Events

The actions of the members of the Organization of Petroleum Exporting Countries (OPEC) caused an increase in oil prices for the United States. Iraq and Iran, striking at each other's oil refineries, inspired fears of more shortages in oil for the world.

While greeting visitors to St. Peter's Square in Vatican City, Pope John Paul II was shot by Mehmet Ali Agca. The Pope was rushed to Gemelli Polyclinic, where he underwent several hours of surgery to repair damage to his arm, hand, and abdomen. The Pope recovered quickly and was released from the hospital the first week of June.

U.S. Politics

On November 4, 1980, Ronald Reagan defeated Jimmy Carter by a landslide margin and became the new President of the United States. The Democrats retained control of the House of Representatives, but the Republicans won a majority in the Senate for the first time since 1952.

President Carter continued to work diligently after his defeat to obtain the release of the 52 Americans that had been held as hostages in Iran since November 4, 1979. Ironically, the release was not accomplished until January 20, 1981, the day of Reagan's inauguration. When the 52 hostages reached American soil, they were welcomed by church bells ringing 444 times and yellow ribbons adorning almost everything.

On Monday, March 30, 1981, President Reagan was shot in the chest in an assassination attempt outside the Hilton Hotel in Washington, D.C. During the attempted assassination of President Reagan, three others were seriously wounded by the shots fired by John F. Hinckley. The President was able to resume most of his duties quickly, and after only a few weeks, was back in the Oval Office. Presidential press secretary James Brady was still hospitalized as of this time.

National News

Millions of Beatles' fans mourned the death on December 8, 1980, of John Lennon. Lennon was shot by Mark David Chapman outside his apartment building.

Fire swept through the MGM Grand Hotel in Las Vegas on November 21, 1980, killing 84 persons and injuring more than 500. The fire and a later one at Caesar's Palace were the work of arsonists.

Since July 1979, 28 black children and young adults have been murdered in Atlanta. Police have been questioning a suspect, but as of June 1981 no arrests have been made.

Mount St. Helen, which first erupted in May, has continued to disrupt the Northwest with periodical minor eruptions.

The economy was plagued by recession and inflation. The cost of living continued to rise by over 10 percent. Michigan was hard hit as the ailing auto industry crippled the state's economy. Many residents were forced to move to other states to gain employment.

Schools throughout the state felt the economic pinch as voters turned down requests for new operating millage. Drastic cuts for 1981-82 were announced in many schools in Saginaw County.

Science

In April 1981, America's first Space Shuttle Columbia flew its extremely successful three day mission. The mission was accomplished with a near perfect landing in California. The Columbia has been returned to Cape Kennedy for another flight later this year.

Sports

More than 500 U.S. Olympians had their dreams of victory dashed when the United States boycotted the 1980 Moscow Olympic because of Russia's invasion of Afghanistan.

The Philadelphia Phillies won the World Series by defeating the Kansas City Royals, 4 games to 2.

Super Bowl XV, played in New Orleans in January, was won by the Oakland Raiders, who defeated the Philadelphia Eagles by the score of 27-10.

In our area, the Saginaw Gears became the Turner Cup Champions by defeating Port Huron, Fort Wayne, and Kalamazoo. The Gears, although victorious in play, were forced to file bankruptcy papers.

because of financial problems caused by increasing costs.

Entertainment

The TV season was delayed by a strike of 60,000 film and television actors. Thus, TV viewers had to wait until October to find out on **Dallas,** "Who Shot J.R.?" The show which revealed Kristen as the guilty one had an audience of 83 million.

Students continued to rush home to spend the hour between 3 and 4 watching **General Hospital.** The characters in this soap opera were discussed at great length by all who watched.

Popular movies of the year included **The Empire Strikes Back, Airplane, The Shining,** and **Friday the 13th.** Average price for a movie at the boxoffice was $4.00.

This year's yearbook staff was made up of 14 students, mostly seniors. Although the class liked to talk most of the time, the work was finished on time. The basic ingredient that holds the staff together is teamwork. Everyone helps each other when they are in a tight spot for thinking up captions, cropping pictures, drawing layouts, or many more things.

This year we tried something new. We sold Christmas items to raise money. With the money earned as commission, the staff purchased a 35 mm camera for yearbook use in the future.

I have enjoyed being on the yearbook staff. It has been rewarding, fun, and a lot of hard work. I recommend to anyone that is willing to work to join the yearbook staff. I hope that you will enjoy it as much as I have.
